## DIRECTIONS & HEATING INSTRUCTIONS

Keep frozen while in storage, and heat from frozen. Do not thaw before heating or refreeze. Use a Turbo Chef Vector, air fryer, baking oven, or skillet for best results. For faster cooking, use a microwave. Cooking times may vary. Remove product from the plastic bags before heating.

**Turbo Chef Vector (recommended option for convenience stores and restaurants back-of-house):** Preheat to 400°F at 80% Fan, then heat 11.5 minutes (starting at 450°F) until golden brown.

**Air Fryer:** Preheat to 400°F, then air fry for 12-13 minutes until golden brown, fully heated on the inside and crispy on the outside.

**Baking Oven (standard home conventional or convection ovens):** Preheat to 400°F, place in an oven-safe dish on the center rack, then bake for 15-17 minutes until golden brown.

**Skillet:** Preheat oil at medium heat (do not overfill). Fry for 14-16 minutes, flipping every 2 minutes and place the bites on a paper towel to absorb excess oil prior to serving.

**Microwave:** On a microwave-safe dish, then heat on high for 1 minute (2 bites) or 2 minutes (4 bites).
